WHO WE ARE

WE BUILD WHERE OTHERS WON'T GO

Remote Trades Co Australia (RTC) is a registered WA building contractor (BC106843) built for remote and regional project delivery. We service all of remote WA — building camps, warehouses and remote facilities, and holding long-term maintenance contracts across some of the state's most demanding locations.

As head-contract builder we take responsibility for the whole job: self-performing building works and managing a trusted network of subcontractors for civil, electrical, plumbing and specialist trades. Clients get one accountable builder, real systems and reporting, and delivery that stands up to remote conditions.

WHY RTC

Ready for remote

Registered Builder

WA Building Contractor registration BC106843 — we hold head-contract building registration.

Remote Specialists

Delivery across Western Australia — Pilbara, Goldfields and beyond. The further out, the better.

One Accountable Builder

We self-perform building works and manage every trade under one contract.

Long-Term Partner

Ongoing maintenance term contracts, not just one-off jobs.

Systems-Driven

Live site reporting, cost control and quality records on every job.

Recognised Locally

2025 Alcoa Peel Business Awards Finalist (Start-Up Business) — a WA business, backed in WA.

WHAT WE DELIVER

OUR CAPABILITIES

As a registered WA building contractor, RTC takes head-contract responsibility for remote builds and maintenance — self-performing building works and managing the trades around them.

01 CAMP BUILDS & ACCOMMODATION

Workers' camps and accommodation built and fitted out for remote sites — from single-block additions to full camp establishment.

02 MODULAR INSTALLATION

Transportable and modular buildings craned in, set, joined and commissioned — delivered install-ready.

03 WAREHOUSE & WORKSHOP BUILDS

Warehouses, workshops and steel-frame structures built to spec — supply, install and completion, coordinated end to end.

04 REMOTE BUILDING PROJECTS

Facility builds, fit-outs, upgrades and refurbishments across remote and regional WA, delivered as head-contract builder.

05 LONG-TERM MAINTENANCE

Planned and reactive building maintenance under ongoing term contracts — keeping remote assets operational year-round.

MANAGED TRADES

Civil, electrical, plumbing and specialist trades are delivered through our established network of appropriately licensed subcontractors, coordinated and managed by RTC as head-contract builder. One point of accountability, all trades covered.

HOW WE WORK

SAFE, SYSTEMISED, ACCOUNTABLE

Remote sites don't forgive shortcuts. Every RTC job runs on the same disciplines, whether it's a two-week install or a term maintenance contract.

SAFETY ON SITE

Site-specific inductions, JHAs and take-5s, fit-for-work crews — working under our systems or fully integrated with the client's.

LIVE SITE REPORTING

Daily site diaries, photos and timesheets captured from site — clients see progress as it happens, not at month end.

COST & PROGRAM CONTROL

Every job costed in real time against budget and program, so there are no surprises at claim time.

QUALITY & HANDOVER

Quality records kept as we build, with clean handover documentation at completion.

Prestart — every day, every site

OUR WORK

TRACK RECORD

Remote and regional building projects delivered across WA and interstate — from workers' camps to schools, warehouses and modular housing.

Remote Workers' Camp Mid West WA
Accommodation camp build and fit-out in a remote, logistics-heavy location.

Industrial Warehouse Pilgangoora, Pilbara
Large-span warehouse supporting a major resources operation.

Workshop Build Aurenne, Regional WA
Purpose-built workshop — structure and coordinated services.

Remote Community Schools Central Desert WA
School builds and upgrades across remote communities.

Remote Housing Packages Leonora & Lamington
Remote and regional housing delivery with TR Homes / MRN.

Modular Housing Program Regional NSW
~10 modular homes delivered fast-tracked for bushfire relief.

WHO WE WORK WITH

ABOUT RTC

BUILT FOR THE CONDITIONS

Remote Trades Co Australia grew out of nearly two decades of hands-on construction across WA and the NT. Today we build camps, sheds and remote facilities and hold long-term maintenance contracts for mining, resources, infrastructure and government clients — with a director who still gets on the tools.

Codey Hopper **DIRECTOR**

Close to 20 years of hands-on construction across WA and the NT. Starting as a carpentry apprentice at 16, Codey worked up through quoting, procurement, logistics and site supervision on residential, commercial, industrial and remote infrastructure projects, establishing Remote Trades Co in 2025. He leads with a practical, boots-on-the-ground approach — personally overseeing key phases to keep safety, quality and program on track.

Toby McCosker **OPERATIONS MANAGER**

A dual-trade and management background as a qualified builder and licensed electrician, and RTC's nominated supervisor under its WA building contractor registration. Toby runs RTC's systems, tendering, compliance, scheduling, procurement and project reporting — keeping every job visible, costed and compliant from mobilisation to handover.

ONE CREW. EVERY TRADE.

Director and site leadership on the ground for key phases. Site leads and trade crews who know remote work — FIFO-ready and site-inducted. Operations and mobilisation running planning, compliance, logistics and live reporting behind every swing. Licensed trade partners coordinated under one contract.

WHERE WE WORK

SERVICING REMOTE WA — AND BEYOND

Our primary service areas are the Pilbara and Goldfields, run from bases at Port Hedland (Wedgefield) and Herron in the Peel region. We have deep local knowledge, established partnerships and a track record of safe, reliable delivery in challenging environments.

Wherever the work is, we're built to get there — including Australia's remote Indian Ocean territories. Now tendering: Cocos (Keeling) Islands.

OPERATING LOCATIONS

Port Hedland — Wedgefield

Lot 5892 Manganese Street, Wedgefield WA 6721

Peel — Herron

114 Clifton Downs Road, Herron WA 6211

Local content & community

We're WA-based and Pilbara-resident, with our northern base at Wedgefield, Port Hedland. RTC is a C-Res Local Buying Program approved supplier and was named a Finalist in the 2025 Alcoa Peel Business Awards (Start-Up Business) — and we hire and buy locally wherever the job allows.

INDUSTRIES WE SERVE

Mining · Resources · Infrastructure
Remote camps · Facilities maintenance · General construction

ON THE ROAD

A FAMILIAR SIGHT, THE FURTHER OUT YOU GO

RTC-branded vehicles, plant and site set-ups across the Pilbara and Goldfields — mobilised, inducted and ready to work.

LET'S TALK ABOUT YOUR PROJECT

Whether you're a project owner, head contractor or Shire planning remote works, tell us what you're building and where — we'll come back to you quickly.
